Eggdrop and Tcl Websites

All Tcl
A French site currently under construction offering a small number of Tcl scripts.

Amiga Eggdrop
Contains Amiga ports of Eggdrop.

BotnetCentral
A new Eggdrop news site. Currently hosts tarballs of the latest CVS versions of Eggdrop, plus a !trigger script creator.

Bots4All
Eggdrop downloads and tutorials in both Dutch and English.

bseen
This site has an excellent Tcl script search engine and other script-finding features. The Eggdrop bots and Tcl scripts webring is also located there.

Egg FAQ
Support site for #eggfaq on EFnet. Contains files, docs, a forum and other Eggdrop-related material.

Eggdrop
A general Eggdrop and Tcl scripts site. In French.

Eggdrop
Brazilian Eggdrop help site, written in Portuguese.

Eggdrop
A scripts and help site that is under construction. Currently the home of a MySQL seen script.

eggdrop config.file via WWW
A simple Eggdrop config file generator allowing you to create a config file via web form.

Eggdrop Modules and Scripts
Contains several modules and scripts by G`Quann.

eggdrop.hu
Hungarian language site containing Eggdrop and Tcl information.

Eggdrop.net
The 'official' Eggdrop site, run by the old Eggdrop development team. It's still under construction so there isn't much to see there just yet.

Eggdrops R Us
General info on Eggdrop bots and how to set them up. Also includes information on configuring bots for use with IRCX servers.

eggXpress
A general Eggdrop and shells site with shell provider information, Eggdrop help pages, and forums.

Ernst's Eggdrop Page
A website by someone who's been active in the Eggdrop community for a long time. You'll find lots of useful Tcl scripts by Ernst here. Also be sure to check out the Eggdrop FAQ. Despite being incomplete, it's one of the most useful FAQs out there, especially for experienced users.

EspReSso's Eggdrop Archives (no longer available)
This was once the granddaddy of Eggdrop websites, a web index to the huge Eggdrop file archive on Sodre.Net, which contained many different versions of Eggdrop, hundreds of Tcl scripts, as well as patches and modules. It's been gone for a long time now but I've left the link here for its historical value.

FireEgl's Eggdrop Scripts
Home page of lots of useful scripts by FireEgl.

frida
Home page of the frida Eggdrop script for use with shoutcast radio.

Goblet's Eggdrop Scripts
A web page with some good Tcl scripts by Goblet. Just make sure you don't mail him about them :-)

Index of /~shorty/eggdrop
You can download some good Tcl scripts by Nils Ostbjerg here.

irc @ themes.org
A nice little page where you can download non-Eggdrop bots as well as IRC bouncers and other IRC-related software.

IRC Bots
A German site with Eggdrop, Windrop and Angel Bot downloads.

Johoho's Eggdrop Page
Contains information on channel attacks and Eggdrop security, useful Tcl scripts and components for netbots.tcl, precompiled Eggdrop binaries, and a Links section.

Kalishma Bot Service
Bot lending service. Also has pages with Eggdrop files, scripts and help.

LoL's TooLz HomePage
Home of the LoL's TooLz Tcl script. In English and French.

MC_8's TCL Scripts
A nice simple page with all the latest versions of MC_8's scripts.

mICKp3
Home page of the mICKp3 locator/find mp3 Tcl script for Eggdrop.

mIRCStats Eggdrop Logger
Home page for a script that creates mIRC-style channel logs for use with the mIRCStats program.

No!Spam Headquarters
Home page of the No!Spam spam detector script by ppslim.

nodbot
Home page of the nodbot script.

nXistence
A number of Eggdrop scripts written by nXistence.

Precompiled Eggdrop Archive
Contains many precompiled versions of the latest Eggdrop releases.

Precompiled Eggdrops Archive
Contains many precompiled Eggdrops from 1.1.5 through to 1.3.23.

Project "Kalich"
Home page for a set of Tcl scripts aimed at intelligent IRC channel management, support and entertainment.

Pyramid of Fear
A site under construction which currently contains Eggdrop source downloads, modules and Tcl scripts.

raeky's eggdrop page
Security related scripts and modules, including a cookie op script, precompiled eggdrop archive, and other nifty scripts and things.

Ruptbot homepage
Official web page for the ruptbot tcl script for Eggdrop.

ScriptWorld
Place where script developers can submit their Tcl scripts and receive
feedback and bug reports.

SUNiNet
An Eggdrop Tcl resources site with scripts and the excellent Guide to TCL
scripting for Eggdrop.

Sup's Eggdrop Page
A site with many useful Tcl scripts, and instructions for installing Eggdrop
and patches. In English and Finnish.

TCL by cmouse
Contains Tcl scripts for Eggdrop written by cmouse.

Tcl Developer Xchange
Formerly known as Scriptics. This site has links to many Tcl resources all
over the web, and is a good place to go if you need more information on
any aspect of Tcl. Unfortunately, you won't find much of a focus on Tcl
scripting for Eggdrop here.

twitch systems
Home page of the twitch-b Tcl script for Eggdrop.

Undernet's #eggdrop
A site maintained by the #eggdrop channel on Undernet. Includes a
message board, tips on Eggdrop setup, as well as channel-related stuff.
Be sure to check out the FAQdrop, an excellent searchable database of
Eggdrop related questions.

UnderNets #Eggdrops Homepage
Home page of #Eggdrops on Undernet.

Unixcoder.net
A general Eggdrop, IRC and shell resource site.

VerbatiM
Homepage of a group of programmers/scripters. Contains scripts for
Eggdrop and mIRC.

Windrop Websites

Lair of Da' Kool Cat
Windows Eggdrops, the Eggdrop95 mailing list, and some nice Tcl scripts
can be found here.

Windrop Central
The latest versions of Windrop (Windows Eggdrop) can be found here.

#WindropHelp Home Page
Home page of the EFnet IRC channel #windrophelp. Contains setup help,
scripts, and support for users of Windrops.

WinDrop mini-FAQ
A nice little FAQ for Windows Eggdrop users.

Shell Websites

Shell Central
Shell provider review site which includes a message board and help
articles.

Shell Critic
Shell provider review site.

Shell News
Shell provider news site with shell lists, reviews, uptimes, etc.

The Shell Review
The largest shell provider review site on the web. Includes many reviews
as well as help pages and a forum.

shellreviews.net
Shell provider review site with reviews, awards, and Eggdrop help.

ShellSearch
Shell provider review site.

Shellupdate
News about shell providers. Also has general shell, IRC, and Eggdrop-
related pages.

Shellyea
Shell provider review site with a searchable database of providers.

Unix Shells Page
A large list of shell providers, but it's quite outdated now. Good for
checking how many of those old providers are still in the business.

egghelp.org Translations

eggdrop
Norwegian translation of several egghelp.org pages.

Eggdrop Hjelp
Contains instructions in Norwegian for setting up Eggdrop's config file.

Eggdrop, Shell ve TCL Hakk? Yard?
A Turkish Eggdrop, shell and Tcl website which includes translated pages from egghelp.org.

Guida Eggdrops
Italian translation of several sections of egghelp.org.

Sponsor Websites

Rising Net
Provider of website hosting, shell accounts, e-commerce solutions and website design.

FTP Sites

Eggdrop.Net
The 'official' Eggdrop FTP site contains many versions of Eggdrop, as well as Tcl scripts, patches, and modules. It isn't nearly as big as Sodre.Net, but it contains some scripts you won't find on other FTP sites.

Eggheads.Org
Run by the #eggdrop channel on Undernet, this is the official release site for new versions of the Eggdrop 1.3 and 1.4 series. It also has Eggdrop Win32 ports, and a mirror of Sodre.Net's scripts, modules, and patches archives.

Sodre.Net (currently down)
EspReSso's Eggdrop Archive is the largest Eggdrop file archive on the net. This site has many versions of Eggdrop, hundreds of Tcl scripts, patches, modules, and other files. There are also many mirror sites.

Mailing Lists

Eggheads List
This is the most active list for discussion of Eggdrop. It is primarily for discussion of the latest Eggdrop 1.4 and 1.6 bots. It isn't supposed to be for 'newbie' questions, though, so please use one of the other mailing lists for that.
To subscribe: use the **web form**.

Zaz.Net List
This list replaces the old eggdrop@sodre.net list which was recently discontinued. It is mainly for general Eggdrop discussion and help.
To subscribe: send an e-mail to **majordomo@zaz.net** with **subscribe eggdrop** in the message body.

Eggdrop.Net List
This was once the official Eggdrop list. It is mainly for discussion of the
Eggdrop2 bot and older 1.3.x bots. It isn't as active as the other lists these
days.
To subscribe: send an e-mail to **majordomo@eggdrop.net** with the text
subscribe eggdrop in the message body.

Eggdrop95 Support List
A discussion and support list for users of Windows Eggdrops.
To subscribe: send a blank e-mail to egg95-subscribe@listbot.com, or use
the **web form**.

Windrop List
A new mailing list for discussion of Windrops.
To subscribe: use the **web form**.

Amiga Eggdrop Mailing List
Support and news for users of Amiga Eggdrop ports.
To subscribe: send a blank e-mail to **eggdrop-
subscribe@meanmachine.ch**.

Newsgroups

alt.irc.bots.eggdrop
This Usenet newsgroup is the only Eggdrop newsgroup I'm familiar with. It
receives several posts a day and isn't as active as the mailing lists.

IRC Channels

Note that most of these channels are for general Eggdrop support and
discussion, and **do not lend bots** and **cannot help you find a free shell**.

#egghelp on Open Projects Net
egghelp.org's IRC channel for help and discussion about Eggdrop, Tcl,
shells, and the netbots.tcl script. Small, quiet, and friendly. I like to think of
it as the 'country town' of Eggdrop channels.

#eggdrop on Undernet
Busy and well established Eggdrop channel on Undernet. You will find
many of the current Eggdrop development team there. Visit their home
page here.

#eggdrop on IRCnet
The main Eggdrop channel on IRCnet. Newbies and advanced users are
welcome. Visit their home page here.

#eggdrop.hu on IRCnet

Hungarian Eggdrop help channel.

#egghelp on DALnet
General Eggdrop help channel on DALnet.

#egghelp on QuakeNet
General Eggdrop help channel on QuakeNet.

#Eggdrop-Tcl on AustNet
An Eggdrop and Tcl Support channel on AustNet.

#windrophelp on EFnet
A help channel for users of Windrop (Windows Eggdrop). Visit their home page here.

#botcentral on DALnet
A bot help/chat/idle/parking channel (not a lending service). Visit their home page here.

#bots on DALnet
Channel for discussion of bots. Visit their home page here.

#bothouse on DALnet
Bot lending and help channel. Visit their home page here.

#splitnet on DALnet
Bot lending service channel.

E-mail:
Comments, questions, suggestions, etc.

Tcl Scripts

[Tcl Archive | slennox's Tcl Scripts | slennox's Small Scripts]

Tcl Archive

The archives below contain more than 300 Tcl scripts, including brief descriptions of each script. Note that, since I don't have time to examine each script individually, I can't guarantee the integrity of the files - so use them at your own risk. Nor do I offer support for these scripts - if you need help with them please contact the author.

New Scripts

New and updated scripts added in the last month ...

A-K Scripts

AddOp, allvoice.tcl, altnick3.tcl ...

L-Z Scripts

LamerzWatch, l33t limit protection ...

If you'd like to submit a new or updated script to be added to the archives please **e-mail** it to me (please zip or gzip it before sending). All scripts remain the property of the author.

Most of the scripts in the above archives are written for Eggdrop 1.3 and 1.4. It's hard to keep track of exactly which versions are supported because of so many new Tcl commands in newer 1.3, 1.4 and 1.6 bots. Information about version support may be included in the script's documentation.

slennox's Tcl Scripts

Below are the latest versions of all the scripts I've released. Almost all of them are written for Eggdrop 1.3, 1.4 and 1.6. You'll find newer/enhanced versions of many of the scripts below as components in netbots.tcl v3.xx, although updated standalone versions are sometimes made available shortly after the netbots.tcl releases.

allscripts.zip (Updated 27 February, 2001)
Download all the latest versions of my scripts (including Small Scripts) in

one zip file.

botnetop.tcl v2.23 (27 February, 2001) NEW!!
A script that allows linked bots to securely op/invite/etc. one another, similar to getops.tcl. One of the main features of this script is its 'delayed op' mechanism to prevent +o flooding whenever a bot joins (particularly annoying if you have a large botnet).

sentinel.tcl v2.50 (19 February, 2001) NEW!!
One of the best bot and channel flood protection scripts for Eggdrop. Also integrates BitchX simulation (mainly because it'd be messy to have separate scripts handling CTCPs) based on that used in bitchxpack.tcl. This script replaces one of my previous scripts called 'lockchan.tcl'.

clearneeds.tcl v1.00 (15 November, 2000)
Adds a '.clearneeds' DCC command for clearing channel need settings (need-op, need-invite, need-key, need-limit and need-unban). The command is accessible to global +n users only. If you're using netbots.tcl and load the script as a netbots.tcl component in netset.tcl, you will also have access to the '.netclearneeds' command and can view help for the commands using '.nethelp'.

superbitch.tcl v2.0 (4 June, 2000)
This script deops non-bots who op a user on a channel, and deops the user(s) they opped. Helps protect the channel from takeovers if someone 'accidentally' ops someone they shouldn't.

cleanusers.tcl v1.1 (20 February, 2000)
Removes users from the userfile who haven't been seen in a specified number of days. Can also remove users who don't have a password set. Cleanups can be done automatically once a day or manually via DCC commands.

bitchxpack.tcl v1.50 (26 October, 1999)
Makes your bot simulate BitchX CTCP replies and AWAY mode. Built-in CTCP flood protection. The script is designed for accuracy and efficiency, rather than trying to simulate many different BitchX versions. Note that this script shouldn't be used with other scripts that bind the standard CTCP types (e.g. sentinel.tcl).

netbots.tcl v1.16 (25 April, 1999)
A secure botnet commands script with encrypted communication. Commands include nethelp, netbots, netinfo, netshell, netserv, netpass, netsave, nethash, netsay, netact, netnotice, netjoin, netpart, netchanset, and netcycle. Click here for netbots.tcl v3.xx.

nocycle.tcl v1.3 (10 April, 1999)
This script prevents your bot from pointlessly cycling channels on EFnet servers that don't give ops when split, while still allowing you to use +cycle for other situations.

chanlimit.tcl v1.5 (1 April, 1999)
This script keeps maintains a channel limit to prevent serious floodbot attacks. It has a couple of features that you won't find in other limiter scripts.

repeat.tcl v1.1 (9 April, 1999)
This kicks and/or bans users who repeat the same line in a channel several times. It is a complete rewrite of the original repeat.tcl script (don't let the v1.x fool you, this is newer and much better than the old repeat.tcl v4.1).

aidle.tcl v1.1 (28 March, 1999)
Basic anti-idle script that sends random msg's to a channel at random time intervals.

pubban.tcl v1.00 (19 March, 1999)
Adds public commands for adding bans and managing the ban list. This script is fully featured and particularly useful if you don't like having to DCC chat to the bot to add bans. It isn't quite refined yet, though, and there are a few small bugs.

mainserver.tcl v1.04 (31 January, 1999)
This script tries to keep the bot on a particular server. Useful if you have several bots and wish to keep them on different servers.

clientstats.tcl v1.1 (3 January, 1999)
A gimmicky little script that gathers info about the IRC clients people are using, and displays the stats to the channel.

slennox's Small Scripts

This section contains little Tcl scripts (generally less than 40 lines of code) that do small but handy things. They're also useful for people new to Tcl scripting who need examples of how to do basic things. As with my other scripts, these are written for the Eggdrop 1.3 and 1.4 series and they may not work on other versions.

autolog.tcl v1.0 (13 July, 2000)
When you want to make your bot keep a logfile for a new channel, you normally have to manually add a new `logfile` command to the bot's config file. This can be a problem if your bot frequently joins new channels and you want to keep a log for each. This script automatically enables a logfile for each channel the bot joins, so that you don't need to enable it manually.

keepout.tcl v1.3 (27 May, 2000)
Checks users who join +i (invite-only) and +l (keyed) channels, kicking and/or banning them if they don't match specified userflags.

partmsg.tcl v1.0 (26 November, 1999)
Sends a message to people who part the channel. Includes multi-channel support.

quitban.tcl v1.1 (25 November, 1999)
Bans people who use specified quit messages. Wildcards are supported.

botnick.tcl v1.0 (21 November, 1999)
Adds a DCC command for changing your bot's nickname.

botresync.tcl v1.0 (17 November, 1999)
Basic script that attempts to prevent the bots from becoming badly desynched. Useful on networks such as Undernet where this can often happen.

cronchk.tcl v1.0 (8 November, 1999)
Checks your crontab entry once a day and informs you if it's empty.

Thx guppy :)

Win a one month limited free shell

Posted by Wingman on 05/09/2000 @ 23:57

What do you have to do for this shell?
Only add as many comments/description to files indexed on BotnetCe
00:00), the winner is, who has added the most comments.

What do you get for it?
- A shell on a linux server
- connected with 2mbit
- kernel 2.2.12-20, amd k6 266 mhz
- 9 gig hdd
- your space will be limited to 100 mb
- process limit is one eggdrop or one bnc
- you?ll get a www directory with cgi-bin enabled, php4 and mysql ac
- BUT: the shell is limited to 1 month, after this time, it will be delete
What?s not allowed:
- adding always the same description (e.g. for eggdrop1.1.5 till eggd
- descriptions/comments, which are not related to the file or are just
- adding a description/comment, that has already been posted or is s

What?s allowed:
- copying descriptions from the files itself, (e.g. descriptions from the

Why i?m doing this?
- cause it?s an advantage for all of us, if the files at botnetcentral ha'
- i?ll get no money for any hits on this site (there?s no banner on it)!

Note on Counting comments/descriptions:
- use always the same nickname/email/password

Starts at: RIGHT NOW

Happy posting =)

Eggdrop 1.5.3 released

Posted by Wingman on 05/07/2000 @ 03:13

Guppy just released 1.5.3 moments ago...

Well people here is another beta version of Eggdrop for you to fiddle

*With the release of Eggdrop1.5.3, the development tree is officially b
soon Eggdrop1.6.0 will become the next official stable version of Egg
release of 1.5.2 (a long time ago)*

-- the UPDATES file for 1.5.3 can be viewed online @

*http://web.archive.org/web/20000524044155/http://www.eggheads
at BotnetCentral.*

*Some of the major things changed since 1.5.2 have been a totally ne
their own configure scripts which makes compiling eggdrop on certaii
added which supports userfile sharing compression and adds some n(
decompress files. Also a complete set of web documents have been a
eggdrop.conf.dist is also gone now, and has been broken up into thre*

*eggdrop.simple.conf
eggdrop.advanced.conf
eggdrop.complete.conf*

*This allows for easier editing of the config file, since you can pick whi
into your configuration.*

You can download eggdrop1.5.3 @

*http://web.archive.org/web/20000524044155/ftp://ftp.eggheads.org
http://web.archive.org/web/20000524044155/ftp://ftp.wingdesign.d*

the md5sum as always is:

*[guppy@tsss beta]$ md5sum eggdrop1.5.3.tar.gz
586121ad4599b679a8f01adaa0ff5f07 eggdrop1.5.3.tar.gz*

Jeff.

New database + mirror
Posted by <u>Wingman</u> on 05/04/2000 @ 23:01

I had to reset the database, cause the update script is now using rsyı
ftp.wingdesign.de is now (currently un)official mirror of ftp.eggheads

!Trigger Build Kit

You want your bot to respond on e.g. !rules and send the 'writer' a txt file? Or just a notice? But you don?t know anything about TCL? No problem, just fill out this simple form and that?s it.
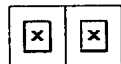

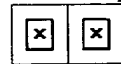

1. What?s the 'command' to which the bot should respond? (e.g. !rules or !send)

!trigger

2. Who should be able to use '!trigger'?

all users

3. What should the bot do, if it detects this command??

☐ Send a **NOTICE** to <nick>:
```
Hi, welcome to #channel!
```
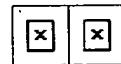

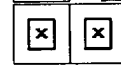

☐ Send a **PRIVMSG** to <nick>:
```
Hi, welcome to #channel!
```
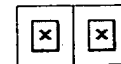

☐ Send a **PUBLIC** msg <channel>:
```
Hi, welcome to #channel!
```
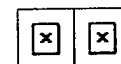

☐ DCC Send a **FILE** to <nick>:
/path/to/your/filename.txt
